

*I have three incredible sons, whom I love and I am very proud of. I also love my three beautiful, daughter-in-law's and my six adorable grandchildren. and two step grandchildren . Being a grandma is the best! I got my degree in social work at Weber State, then attended University of Utah to receive my masters in social work. I have a private practice in Ogden, which I enjoy very much. I also do some consulting work with Athenian charter schools and Utah virtual Academy. I serve on the multidisciplinary team at the Children's Justice Center. I have lived here in North Ogden for 41 years. There are many things I love about our community, but my favorite would have to be our beautiful mountains. They provide stability and strength to our beautiful city.*
