

*Roy and Melissa are both longtime residents of North Ogden. They grew up in the same neighborhood, but never met until well into their 30's. They love the area and continue to call the same neighborhood home. After attending school at Green Acres, North Ogden Jr. High and Weber High School they both went on to study at Weber State. Roy majored in Business Management and Melissa pursued a degree in Cultural Anthropology. Jelsco Awards was started in Roy's parents garage after his father retired from Defense Depot Ogden. The first piece of equipment was purchased on Roy's 16th Birthday. As soon as he got his driver's license he drove straight from the DMV to Las Vegas to pick up a manual engraver. This piece of equipment is still a staple in production, working steadfastly alongside state of the art laser equipment and UV printers. Roy's love of cars and experience at Jelsco has been instrumental for Jelsco's involvement in the car show community. For years Jelsco has supplied awards for car shows across the United States, Canada, England, Australia and New Zealand. Each car show has custom artwork specifically tailored to the event. Melissa's strong sales and buying background has allowed them to expand their services to include apparel in order to meet the constantly changing needs of their customers. Both enjoy hosting and attending car shows, in spite of the fact that he is a Ford guy through and through, while she was born and raised on Chevys. You'll often see them around town in Roy's 41 Ford Business Coupe or Melissa's 1970 Chevy C/20.*
